saying no the negative ramifications from invitation declines

Dec 28 2021

Research shows that people who reject requests to perform favors overestimate the negative consequences that emerge from doing so because they are motivated to avoid such negative consequences. While this research has a similar flavor as the present work, our research is unique for at least two reasons. First, we explore social global migration in the 21st century navigating the impact of

Nov 26 2021
while world development report 2023 compiles new research and introduces an innovative framework it also brings attention to the existing gaps in our knowledge a large body of research documents traditional factors driving migration like the vast disparities in wages between countries but significant uncertainties remain
